Spa Etiquette

ARRIVAL

We recommend that you arrive 30 minutes prior to your scheduled appointment to allow us to welcome you and introduce you to the spa facilities. Clients will have a form to fill out if they did not already fill out online. This also allows ample time to prepare for your services. Arriving late will simply limit the time of your treatment.

CANCELLATION POLICY

As a courtesy to other guests and our service professionals, we ask that you notify us a minimum of 24 hours in advance. If you must reschedule or cancel your appointment, 50% of the value of the treatment will be charged for cancellations received less than 8 hours before your scheduled appointment. No shows and cancellations within 4 hours of your scheduled service are non-cancelable and are charged at full value of the services. A credit card number is required at the time of booking.

HEALTH CONDITIONS

When making your spa reservations, please advise us of any health conditions, allergies or injuries which could affect your service.

GUESTS

The spa welcomes both hotel guests and external guests for any of our services.

AGE REQUIREMENTS

The minimum age requirement for access to the spa is 18, with exception of select teen treatments and salt cave inhalations.

CELL PHONE USAGE

Our spa offers each guest the chance to relax in a tranquil setting. Please turn off any mobile devices to preserve the serenity of the spa and respect of our other guests within our environment.

GRATUITY

As in all service-related businesses, it is common practice for gratuities to be given to the person who has done a good job to the satisfaction of the guest. We suggest 15-20% of the cost of service. For your convenience, a 20% service charge will be automatically added for 2 or more services in all groups.

GIFT CERTIFICATES

Any amount is available at our spa reception. Gift certificates expire 6 months after purchase.

GROUPS AND SPECIAL OCCASIONS

PURESOLSPA® is the perfect environment to celebrate birthdays, bridal parties and work functions. The spa can be used solely for your event or a private area can be set aside.

- The spa employee will inform you when the session is over.
- Staying in the salt cave is an effective method of treatment for chronic respiratory diseases. The process works well with or without medical treatment and without any known side effects.

Salt Therapy 

Our salt cave is made from the very salt that is home to the largest underground salt cave rehabilitation center in the world and known for its healing microclimate. It is a man-made, above ground made out of 20 tons of salt that re-creates the unique microclimate similar to the famous, healing mine in Poland. This sealed environment is where the negative ions (these are the good guys) are disbursed in the atmosphere and absorbed by the body via the skin and the respiratory system.

Apart from the advantageous negative ionization, the air in the salt cave includes sodium, potassium, magnesium, calcium, iron, bromine and iodine. These are naturally absorbed into body during the therapy by breathing the saturated air into the lungs and thus improving the intake and increasing supply of these important elements necessary for good health, performance and overall fitness for all ages. Three days worth of breathing in beach air in under an hour!
